DETAILED ACTION

Response to Arguments

The restriction is held proper for the reasons cited in the election requirement.

Allowable Subject Matter

Claims 36-60 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest, at a minimum, a thermal isolation area placed between a semiconductor substrate and a flexible area and made of resin for joining the semiconductor substrate and the flexible area in a semiconductor microvalve, in which the flexible area is displaced in response to a change in temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited shows the state of the art.

This application is in condition for allowance except for the following formal matters:

Cancellation of non-elected claims, 61-68 is required before the case can issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
